- 6.2 At our sole discretion you may be offered a Credit Account. In the event you are offered a Credit Account additional specific terms and conditions will be issued to govern the operation of the account.
- 6.3 To open and maintain a Transaction you will need sufficient Trading Resources to cover the relevant margin requirement. We will determine the relevant margin requirement in our sole discretion and it will be set on an individual product basis, see Market Information sheets for specific details.
- 6.4 We may, at any time and in our sole discretion, increase or decrease the margin requirement in respect of you opening new Transactions and/or to maintaining your open Transactions. We will make reasonable (i.e. to contact you by email, telephone) efforts to notify you of any such change, but the relevant change will apply regardless of whether any such notice is given or received.
- 6.5 If the Margin Level, whether through a change in the margin requirement, erosion by the impact of adverse market movements or otherwise, becomes:
- (i) less than 100 per cent., we may at any time close all or any of your open Transactions (in whole or in part); and
 - (ii) less than 50 per cent., we will close all or any of your open Transactions (in whole or in part),

in each case in markets that are available for trading and without notice. See clause 13 for further details.

- 6.6 If we take action pursuant to clause 6.5 either case, we may elect to close all open Transactions as we cannot select which Transactions to close as we are not trading on your behalf but in an 'execution only' capacity.

7. ORDER TYPES

- 7.1 An Order is an offer to open or close a Transaction if our price moves to or beyond a level you specify. The basic Order types available are:
- Instant Orders;
 - Market Orders;
 - Stop Loss Orders or Limit Orders;
 - Trailing Stop Orders; and

- Guaranteed Stop Orders.

- 7.2 Instant Orders are an immediate instruction to buy or sell at the LCG Quoted price.
- 7.3 A Market Order is an instruction to deal in a specified size at the best available price for that size. By placing a Market Order you acknowledge that the order might be executed at a price that is worse than the LCG Quote at the time you place your Order.
- 7.4 A Stop Loss Order is an instruction to deal if the LCG Quoted price becomes less favourable to you. A Stop Loss Order is generally placed to provide some risk protection, for example in the event of your Transaction moving into loss, and can be used to either open or close a Transaction. Each Stop Loss Order has a specific stop level, set by you, subject to our acceptance. A Stop Loss Order will be triggered if our bid or offer price (as appropriate) moves against you to a point that is at or beyond the level specified by you. Once a Stop Loss Order is triggered we will open or close (as appropriate) a Transaction at a level that is the same or worse than your stop level.
- 7.5 A Limit Order is an instruction to deal if the LCG Quoted price becomes more favourable to you. A Limit Order can be used to either open or close a Transaction. Each Limit Order has a specified limit level, set by you, subject to our acceptance. A Limit Order will be triggered if our bid or offer price (as appropriate) moves in your favour to a point that is at or beyond your specified limit level. Once a Limit Order is triggered we will seek to open or close a Transaction at a level that is the same or better than your limit.
- 7.6 Trailing Stop Orders automatically track the price activity of open Transactions, and adjust the Stop Level to reflect the price activity if that price activity is favourable to you. They are a tool to "lock in" profits, and mean you don't have to monitor and move your Stop Level constantly. You set the conditions for the Trailing Stop Order to move automatically if the Market moves in your favour. Trailing Stop Orders can be used on Long or Short Transactions, assisting you in securing gains if they occur as the market moves. Trailing Stop Orders are available on most Markets, and may be added to a new Transaction, or attached to open Transactions at a later stage. You specify the Stop Level (how far away from the opening level the Trailing Stop Order is to be placed), and the Trailing Stop Order will move in predetermined increments if the price moves in a favourable direction. Trailing Stop Orders are not guaranteed and

- may be subject to Gapping and/or Slippage. There is no charge for setting a Trailing Stop Order. Trailing Stop Orders only operate when you are logged into your account and your browser is connected. If the connection is lost or ended, the Trailing Stop is cancelled.
- 7.7 Guaranteed Stop Orders are available on certain markets; these are detailed in the Market Information. Guaranteed Stop Orders cannot be added, cancelled or amended when the relevant market is closed or outside our Quoting Hours. Maximum Transaction Size and minimum Order distance levels may be different for Guaranteed Stop Orders when compared to Stop Loss Orders. We may amend at any time and without notice the Markets for which Guaranteed Stop Orders are available, the times that Guaranteed Stop Orders can be placed, cancelled or amended, the maximum Transaction Size permitted and minimum stop distances. When instructing us to attach a Guaranteed Stop Order to an existing open Transaction, an opening Transaction, or an Order, you agree that we may charge a premium either through widening the spread on which you make your Transaction or by executing a cash debit to your account. We may change the Guaranteed Stop Order premiums at any time without notice, including in cases of volatile market conditions and/or illiquidity regardless of whether this change is or is not reflected in the Market Information. We are not required to agree to any request to place a Guaranteed Stop Order and, in certain circumstances including volatile market conditions and/or periods of illiquidity, we may refuse any request to place a Guaranteed Stop Order.
- 7.8 Other than for Limited Risk Accounts, the effects of Guaranteed Stop Orders on Transactions will not be considered for the purposes of determining your margin requirement.
- 7.9 Upon activation, a Guaranteed Stop Order will be executed at the price that you have specified and at no other price (Guaranteed Stop Orders will not be subject to Slippage or Gapping). In the event that any Order with an associated Guaranteed Stop Order is Slipped, the Stop Level of the associated Guaranteed Stop Order may be different to the Stop Level specified in the Confirmation, but equate to the same risk. We may require you to pay an additional premium in order to amend the level of a Guaranteed Stop Order. Guaranteed Stop Orders are cancelled automatically when your Transaction is closed. You will not be re-credited with any premium charged for a Guaranteed Stop Order that is cancelled. Premiums will be recharged every time an open Transaction is rolled over into a future contract if you so instruct us to place a Guaranteed Stop Order on the new Transaction. When rolling over a Transaction with a Guaranteed Stop Order attached to the next available contract period it is your sole responsibility to ensure that the new Transaction has a Guaranteed Stop Order attached if you so require. A Guaranteed Stop Order will not be attached to the new Transaction unless you specifically request it.
- 7.10 We may amend the Size and Stop Level of a Guaranteed Stop Order in the event of any corporate action or change in dividend policy relating to a particular market. You also agree that, if any placement of a Guaranteed Stop Order is unfairly advantageous to you (for example if you are Long a market that goes ex-dividend and you have a Guaranteed Stop Order placed within the amount of the dividend payment) or to us, we may amend the Size and Stop Level of any Guaranteed Stop Order.
- 7.11 We may amend a proportion of the Guaranteed Stop Order to a Stop Loss Order when the Transaction Size, whether acquired via a single Transaction or accumulated over a period via a number of Transactions, is of such a Size to warrant such an action (given the Underlying Market). If such an action is taken, we will promptly notify you as such by telephone or email so that, if you wish, you can opt to close sufficient Transactions to reduce the overall Transaction Size.
- 7.12 You may request that an Order is “Until Cancelled”, “Until End of Session” or “Until Date”:
- “Until Cancelled” means that the Order will remain in effect until cancelled by you or until the last trading day (not the Expiry Date) of the relevant market;
 - “Until End of Session” means that the Order will remain in effect until the end of the current or next quoted session for the relevant market for that day, or by 00.00 GMT (whichever is the sooner);
 - “Until Date” means that the Order will remain in effect until the time and date requested when placing the Order or until we cease to quote the relevant market (whichever is the sooner).
- 7.13 An “Until Cancelled” Order will only be valid during LCG’s Quoting Hours for the market concerned. If there is any form of gap between the close of the market as quoted by us on one trading session and its subsequent

reopening either on the next session or, in the case of a Force Majeure Event, whenever we reopen the relevant market, your Order will be executed at the LCG Quote based upon the first price that we are reasonably able to obtain in the Underlying Market.

7.14 Any Stop Loss Orders or Limit Orders on open Transactions will:

- (i) remain in effect until such time as the relevant Transaction is closed, and will function in the same manner as an 'Until Cancelled' Order (see 5(12));
- (ii) be deemed to be in respect of the LCG Quote; and
- (iii) be valid solely in respect of the Market in which we accepted the Order and not for any other.

7.15 A Limited Risk Account can only be operated if a Guaranteed Stop Order is specified with each Transaction.

7.16 For Limited Risk Accounts, a Guaranteed Stop Order cannot be cancelled by you at any time (however, a Guaranteed Stop Order may be amended in accordance with the Agreement). In addition, if a Guaranteed Stop Order on a Limited Risk Account is not specified in relation to a Transaction (for whatever reason), we will automatically place a Guaranteed Stop Order on that Transaction.

8. PLACING ORDERS

8.1 We quote a two-way price in a Size acceptable to us involving a spread between the Buy and the Sell price. You may Buy at the higher price or Sell at the lower price, in each case in accordance with the terms of this Agreement.

8.2 Unless otherwise agreed, any prices shown via any Platform are indicative at the time shown and based on data which is subject to constant change. The execution price is that price which is confirmed to you at the time of execution.

8.3 Subject to clause 8.4 below, you may only make a Transaction with us during LCG Quoting Hours for the Market in question and within the permissible Size(s) (unless otherwise agreed by us). The minimum and maximum Sizes are set by us by reference to the normal market Size for which prices are available on any relevant exchange or market and which offer live price information. The current minimum and maximum Sizes are

available from us on request and the minimum Sizes are detailed on the Market Information. We are entitled to vary these Sizes limits and it is your responsibility to ensure that you know what the current Size limits are before making any Transactions. We also have the right to waive any Transaction Size limits with or without notice to you.

8.4 You may place Orders in any Market during LCG Quoting Hours and outside LCG Quoting Hours (excluding Guaranteed Stop Orders). However no Orders of any kind in any Market will be executed outside of the LCG Quoting Hours for that Market except by agreement with us. Upon the opening of any Market quoted by us any currently executable Order will be filled at our first Quote for the relevant Market that we are reasonably able to obtain with reference to the Underlying Market and the Size of the Order in question.

8.5 In respect of Markets quoted by us outside the trading hours of the relevant Underlying Market, all Orders are based on the LCG Quote and may be filled at the LCG Quote based on a price which is in our opinion fair and reasonable in light of prevailing world Markets at that time.

8.6 An Order can only be placed on the basis of a current valid Quote and you may only request for an Order to be executed on the prices currently quoted on a Platform. Our Quote is indicative only. Due to the nature of online trading systems and the potential unreliability of market price feeds, the price may change at any time and, on receipt, we may reject or accept your Order. Proper notification shall be sent to you if your order shall not be executed. We are not responsible or liable for losses made with other companies on Transactions undertaken in connection with Orders which shall not be executed.

8.7 If, before your Order is accepted by us, the LCG Quote moves to your advantage (for example if you have requested a Buy the price goes down or if you have requested a Sell the price goes up) we may, but are not obligated to, pass on such advantage to you so that when we accept the Order the level at which we open or close the Transaction will be adjusted to the more favourable Quote. For the avoidance of doubt we will not adjust the level of a Quote if it will be to your disadvantage. Any price improvement will be within limits set by us and we may reject any offer in accordance with clause 8.6 above.

8.8 Once an Order is triggered we may elect to allow you to amend the Order before it is executed by us. Although receipt of any

Confirmation of an Order amendment is not binding on us, we may decide to execute the original Order if the activation of that Order occurred before the amendment was made. We will not be liable for any Transactions generated by your assumption of non-activation of a fairly executed Order.

- 8.9 It is your responsibility to cancel any Order that you no longer require. Any un-cancelled Order placed by you may be filled by us and may therefore cause losses for which you will be liable. In the case of Stop Loss Orders, if the related Transaction is closed the Stop Loss Order will be deemed automatically cancelled. If the associated Stop Loss Order on any open Transaction was actionable before you closed the open Transaction, we may adjust the closing price of your Transaction to reflect that Stop Level.
- 8.10 An Order that has been accepted by us will be executed when the LCG Quote reaches the price specified in your Order or as near as possible if the market moves through your specified level. All Quotes are based upon an Underlying Market that is sourced from either a recognised global exchange (LSE, NYSE, LIFFE etc.) or from a wholesale counterparty (a quoting bank or market maker). Our Quote may be higher or lower than the Underlying Market due to interest rate costs, scrip issues, stock splits, competitors' quotes or the volume of client business. The understanding of the definition of "Our Quote" is very important for the correct operation of your account. If you do not understand any part of its description you should contact us for an explanation.
- 8.11 We are not obliged to inform you if an Order is filled. It is solely your responsibility to ensure that you know at all times as to whether any Order has been filled or is still active and if you are in any doubt whatsoever as to the situation it is your sole responsibility to contact us immediately, in the first instance by telephone, in order to obtain clarification as to the validity of any Transaction.
- 8.12 Where a series of Orders may be filled to close existing open Transactions and/or open new Transactions then these Orders will be filled by us in any sequence determined by us. If this results in subsequent Orders having insufficient Trading Resources for activation, then these Orders will be cancelled. We will not look at Order filling sequences that may result in one Order being filled and another failing, we will fill Orders as and when they are seen by our dealers and at our sole discretion.

9. TELEPHONE DEALING

- 9.1 When dealing over the telephone, you must give your name and account number or username. Without this information the Order may not be accepted even if it is to close an existing open Transaction. When dealing over the telephone the Order will only be accepted by us when the dealer confirms that your Order has been accepted. The verbal acceptance of an Order by one of our dealers does not negate either our or your rights in the event of a Pricing Error.
- 9.2 A Quote made over the telephone is only valid at that moment in time and may not be available on any subsequent telephone call, or throughout the initial telephone call. Quotes that have been given as "indication only" are not valid and Orders cannot be executed on them unless otherwise agreed by us. Quotes that have been qualified or Quotes that you have been told are no longer valid before you place an Order are also not tradable.
- 9.3 All calls to our telephone lines are recorded, and you hereby agree to the recording of such conversations. Each Platform retains chronological histories of all Transactions (including Transactions entered by a dealer following an instruction by telephone) and an electronic audit trail of all your activity (although this is not guaranteed). All such records and recordings of telephone conversations are our exclusive property and may be used as evidence in any dispute.

10. GAPPING AND SLIPPAGE

- 10.1 Apart from Guaranteed Stop Orders, no Orders are guaranteed and are subject to Gapping and Slippage.
- 10.2 Where Gapping or Slippage occurs, an Order may not be executed at the requested Order price level but at the nearest price practicably achievable by us. In any case, the Order will be executed in accordance with our Order Execution Policy. You should note the potential impact of Gapping and Slippage on any Order that you have on your account.
- 10.3 Gapping and Slippage are particularly likely when, or near when, a market or trading session opens or closes. Where Gapping occurs in a market during trading hours, any Buy Order below the market or Sell Order above the market will always be filled at the requested price but Sell Orders below the market or Buy Orders above the market may be subject to Slippage. This is in line with general exchange rules as stated in our Order Execution Policy.

10.4 If a new Order is subject to Gapping and/or Slippage, any associated Stop Loss Orders or Limit Orders will be set at the specified level or number of points away from the level at which the Order was actually executed.

11. TRANSACTIONS

11.1 We are not obliged to accept any instruction, howsoever given; however, when an instruction is given by you, it shall be irrevocable without our consent. Once we accept an Order the resulting Transaction will be binding on you, notwithstanding that by opening such Transaction, you may not have sufficient margin in your account or may have exceeded any credit or other limit applicable to you, and we will be under no obligation to take any steps to reverse or cancel the Order unless required by law.

11.2 Transactions will be confirmed via an on screen Confirmation. The contract is binding on both parties except for instances of a Pricing Error.

11.3 An email or on screen Confirmation that does not accurately reflect the relevant Underlying Market price at the time of the Transaction cannot be enforced by us or you.

11.4 In the case of Orders placed via a Platform or any other trading application, it is your sole responsibility to confirm that any Transaction is not in breach of any laws applicable to your local jurisdiction.

11.5 Each Transaction is based on the outcome of the price of a financial derivative, and you will not be entitled to delivery of, or be required to deliver, the underlying product.

11.6 Any Transactions made with us do not occur on an exchange. Rather the Transaction occurs off-exchange or over the counter ("OTC"). As a result, we enter directly into a contract with you in respect of your Transaction.

11.7 If multiple Clients are placing identical Transactions then we may treat this as one Transaction. Therefore, if the combined Size is greater than the liquidity of the Underlying Market and Slippage occurs, all Clients may be treated the same regardless of their individual Transaction Size and filled at the same level which will be where we were realistically able to place a Transaction in the Underlying Market plus the relevant spread.

12. CLOSING TRANSACTIONS

12.1 Transactions may be closed at any time within LCG's Quoting Hours (except where the relevant market is suspended or not available for whatever reason) unless we notify you otherwise. We may accept closure of open Transactions outside our Quoting Hours dependent upon the market but are not obliged to do so.

12.2 You must specifically close an open Transaction; opening an opposing Transaction will not automatically close, wholly or in part, an existing Transaction.

12.3 You are not required to close a Transaction prior to the Expiry Date provided that your account is not in deficit. However, in certain circumstances and in accordance with the Agreement, we will be entitled or may be required to close your Transaction prior to the Expiry Date notwithstanding that your account is not in deficit.

12.4 Unless market conditions dictate otherwise, all Transactions still open on their Expiry Date will be automatically settled at the relevant price as outlined in the Market Information.

12.5 If the Expiry Date of a Transaction is not a recognised business day of the relevant Underlying Market, then the business day immediately preceding that stated will be considered as the Expiry Date unless an alternative is specifically stated in the Market Information or we notify you otherwise.

12.6 Open Transactions will automatically close on their Expiry Date (as are detailed in the Market Information) and any subsequent closing of any such Transaction by you (whether or not accepted in error by us) will be void.

12.7 On the Expiry Date of a Transaction with a specific expiry date, the settlement price will be based on the closing Bid or Offer price of the Underlying Market plus or minus our spread on that Transaction, depending on your Transaction (if you have a Long Transaction the settlement price will be the Bid of the equity in the Underlying Market at the Expiry Date minus the spread and if you have a Short Transaction the settlement price will be the Offer of the equity in the Underlying Market at the Expiry Date plus the spread).

12.8 On the Expiry Date of a Transaction with a specific expiry date during a period of low liquidity in the Underlying Market, we may settle the Transaction at the price achieved by removing our hedge on the relevant

- Transaction during the course of the final business day of the relevant Expiry Date plus or minus our relevant spread or at the closing Bid/Offer price in the relevant Underlying Market plus or minus our relevant spread.
- 12.9 In certain Underlying Market conditions it may not be possible to close a single Transaction with sizable market consideration in full at one price. Such a Transaction may instead be closed at a price reflecting the price at which we are able to transact any relevant underlying hedge but only during the trading hours of the Underlying Market (whether or not the relevant Transaction was opened during or outside the Underlying Market trading hours).
- 12.10 We will treat all Transactions as a Buy or a Sell without reference to whether such actions open a new Transaction and/or close (or part close) an existing one. Any statement made by you with reference to any Transaction closing or opening a Transaction is not binding on us. It is your responsibility to ensure that any action made by you actually closes or opens a Transaction. We are not obliged to ensure that a statement made by you does in actuality have the stated effect (for example if you state that a Sell of the UK 100 "closes a Transaction" when it actually opens a new Transaction then the new Transaction will be deemed to have been opened).
- 13. EQUITY BASED STOP OUT**
- 13.1 The Equity Based Stop Out facility protects you from incurring an uncontrolled deficit on your account and as it can result in the closure of open Transactions (in whole or in part) we strongly recommend that you strictly monitor your Trading Resources and margin levels, which vary in line with market movement.
- 13.2 In the event that you wish to prevent a Transaction from being closed, as the Equity Based Stop Out level is approaching due to adverse market movement, then funds should be deposited.
- 13.3 We do not make Margin Calls, and will not be liable for failing to contact you or failing to attempt to contact you.
- 13.4 It is solely your responsibility to monitor the position on your account, including the prevailing valuations of your open Transactions and margin requirements.
- 13.5 Equity Based Stop Out will close Transactions (in whole or in part) on markets available for trading only, and in the event of the deficiency remaining open Transactions may be closed (in whole or in part) the moment that the relevant market becomes available for trading.
- 13.6 Equity Based Stop Out will not trigger the closure of open Transactions on markets that are marked as indicative or unavailable; until the market reverts from indicative to cleared, at which point in the event of a deficiency any remaining open Transactions may be closed (in whole or in part).
- 14. DIVIDENDS**
- 14.1 In respect of dividends, an adjustment to your account will be made with reference to any dividend or distribution attributable to any relevant equity on which a Transaction is based and will be made and calculated as follows:
- (i) where your Transaction would result in a credit to your account (for example a Buy Transaction in an equity which goes ex-dividend) we will adjust the Account Balance in your favour by the gross dividend amount multiplied by the Transaction Size (an adjustment may be applied to any payment to factor in for example, but not limited to, tax, Transaction process charges, etc.); or
 - (ii) where your Transaction would result in a debit to your account (for example a Sell Transaction in an equity which goes ex-dividend) we will adjust the Account Balance in our favour by the gross dividend multiplied by the Transaction Size (an adjustment may be applied to any payment to factor in for example, but not limited to, tax, Transaction process charges, etc.)
- 14.2 The above provisions will apply in respect of any constituent equity of an equities basket or equities index and are also subject to any such adjustment being scaled back in proportion to the respective weighting of the affected equity within the equities basket or equities index as we reasonably consider appropriate.
- 14.3 In the event of any scrip dividend or rights issue (or any dilution or concentration of equity capital or any special dividend or return of equity capital) or cancellation of dividend in any equities or indices on which a Transaction is already open we may adjust every opening Transaction price or Size taken in that Market (or to adjust your Account Balance) to fairly reflect the impact of the same.

15. OVERNIGHT FINANCING AND ROLLING

- 15.1 Rolling Daily and undated CFD contracts are available in a variety of Markets. Each Market has its own conditions and spread which may vary at our discretion. Such contracts automatically roll into the next trading session. An Overnight Financing debit/credit will be made to your account if you hold a Transaction open from one trading session to the next.
- 15.2 Transactions without specific Expiry Dates will remain open as long as you have funds available to support the margin requirements for each Market. If Overnight Financing charges cause the Trading Resources on your account to go into deficit then we may move Stop Levels on any open Transaction to restore the Trading Resources to a positive position on your account. If you are unable to cover any Transaction due to Overnight Financing (and the constraints of the margin requirements) we may stop any or all Transactions (in whole or in part) in order to restore the Trading Resources to a positive position. We will not be responsible for the subsequent Market activity on Transactions closed or left open.
- 15.3 A Rolling Daily or undated CFD Transaction normally has no Expiry Date or an Expiry Date that is many years in the future, but may be closed by us in the case of a Force Majeure Event or, where the Overnight Financing or anything else has resulted in deficit Trading Resources on the account. When Transactions are closed by us the price will be at the full spread quoted by us at that time or at a price that in our opinion fairly reflects the price at that time.
- 15.4 Where Overnight Financing is applied to open Transactions, the debit/credit to the account is made on each occasion that they are kept open from one trading session to the next, including non-business days. Overnight Financing is explained further in the Market Information and on the Website.
- 15.5 For daily, monthly and quarterly Markets you may at any time before the last dealing time of an open Transaction ask for a Quote to roll the Transaction over into the next contract period. You must have sufficient funds in your account to permit the opening of the new Transaction, following the closure of the existing Transaction. Any roll-over price quoted will reflect prevailing market premiums/ discounts. Permission to roll-over any open Transaction is at our absolute discretion. Upon enactment of the roll-over the original Transaction will be closed and will

become due for settlement (any loss on the closed Transaction becomes realised and payment becomes due) and a new Transaction in the next relevant contract period will be created.

16. MARKET INFORMATION

- 16.1 The Market Information provides important information in relation to each Market offered by us and you are strongly advised to ensure that you understand the contents of them. The information provided in the Market Information includes:

- 16.2 We may, at any time, amend any part of the Market Information.
- 16.3 Current spreads and/or commission rates on contracts will be quoted on request. We may vary Overnight Financing interest rates, spreads or commission rates on any contract or vary the Size specifications without notice, including during volatile Underlying Market conditions and/or illiquidity of the Underlying Market.
- 16.4 We may offer you a different spread to that available on our Platforms if requesting a Transaction via the telephone.

17. MARKET AND EXCHANGE DATA

- 17.1 With respect to any market and exchange data or other information that we or any third party service provides to you in connection with your use of your account, you agree that:
- (i) neither we nor our Trading Partners nor any such provider are responsible or liable if any such data or information is inaccurate or incomplete in any respect;

- (ii) neither we nor our Trading Partners nor any such provider are responsible or liable for any actions that you take or do not take based on such data or information;
 - (iii) you will use such data or information solely for the purposes set out in the Agreement;
 - (iv) such data or information is proprietary to us and you will not retransmit, redistribute, publish, disclose or display in whole or in part such data or information to third parties; and
 - (v) you will use such data or information solely in compliance with exchange agreements.
- 17.2 In respect of market and exchange data licence fees we will absorb these costs, however you agree that, where applicable for access to live market and exchange data (derived or non-derived), we may pass some or all of these costs onto you if they are associated with the use of your account as we inform you from time to time.
- 17.3 If at any time you log into your account during the month for which the above charges are liable your Account Balance will be debited on or around the end of such month (regardless of whether you actually view any of the data for which the charge becomes liable). If you have an insufficient Account Balance to cover the charges we may elect to suspend your access to the live market and exchange data (unless you hold an open Transaction in those markets, in which case your access will be suspended once those Transactions have closed).
- 17.4 The charges will be made retrospectively for use of the data in the previous month and will not be pro-rated, so a full month's charge will apply regardless of when you log into your account. Charges will be applied in the denominated currency of your account.
- 18. CONFIRMATIONS AND STATEMENTS**
- 18.1 Upon entering into any Transaction or Order or upon closure of any Transaction or amendment of an Order or any cancellation of an Order LCG Confirmations will be displayed on screen.
- 18.2 Any material action affecting your account will trigger an on-screen Confirmation. The absence of an on-screen Confirmation of an action on your account will not affect the validity of any Transaction or Order which has been placed.
- 18.3 It is solely your responsibility to ensure that you are fully up to date in respect of all Transactions and Orders on your account. As soon as you receive any Confirmation you must check it to make certain that it is correct and notify us promptly of any error. If you notify us of such an error, we will promptly investigate, resolve and, if necessary, rectify it.
- 18.4 If you receive a Confirmation for a Transaction or filled Order that you allege has not been transacted by or for you, you must notify us immediately. If you do not receive a Confirmation for a Transaction you have placed (or believe you have placed) you must notify us immediately.
- 18.5 You must regularly check your online statement. You are solely responsible for ensuring that you fully understand the fundamental aspects of trading and the markets in which you operate.
- 18.6 Your account statement will be available online at any time unless we have suspended your account, or our Platforms are unavailable for any reason.
- 19. ACCOUNT SETTLEMENT AND SET OFF**
- 19.1 If your Account Balance is in debit, the full amount of that debt is due immediately. Payment must be made in the currency in which the debit balance is denominated (or by agreement with us, and at an exchange rate designated by us, the amount may be transferred to a currency of your choice).
- 19.2 When your account is in deficit we or our agents acting on our behalf, may carry out any credit and identity checks as we deem appropriate. This may result in your personal information being sent to our agents, who may be within or outside the European Economic Area (EEA).
- 19.3 We will require immediate payment of any debt by either electronic funds transfer, debit/credit card, direct debit or any other method of immediate funds transfer acceptable to us or by banker's draft drawn on a clearing bank and delivered to us by 4.30pm on the same business day that the debt arose. We are entitled to refuse payment by cheque, without notice and without giving a reason.
- 19.4 We may charge interest on all sums payable to us under the Agreement which have not been paid within 5 days of the date on which

they arose. We will charge you 2 per cent. per calendar month or part thereof cumulative on sums owed to us, until the debt has been paid in full.

19.5 We have the right to debit from your account or any other account in which you hold an interest any costs, debit interest and expenses incurred in recovering indebtedness. All debts to us are recoverable in law; and irrespective of size may be actively pursued.

19.6 Under no conditions with unrealised profits be paid or be made available for electronic withdrawal or used to offset your obligation to pay your realised losses.

19.7 We may retain funds that are required to cover margin requirements, net unrealised losses, uncleared funds (i.e. cheques or credit card payments), realised losses and any other amount due under the Agreement.

19.8 We may at any time set off any liabilities owed by us to you against any amount owed by you to us. We may, without notice to you, consolidate any or all of your accounts of whatever type or description of which you are the legal owner or have a claim of legal or beneficial ownership.

19.9 We may apply any credit balance to which we are at any time beneficially entitled on any account which you have with us in (or towards) satisfaction of any sum then due and payable (but unpaid) by you to us. If such balances are in different currencies, we may convert either balance at a rate of exchange reasonably (based on market rate) determined by us for the purpose of the set-off. We will not be liable to you for any exchange rate loss suffered by you as a result of such currency conversion.

19.10 Without prejudice to any part of the Agreement we may require the settlement of all open Transactions at any time and with immediate effect. Such settlement will be made at the prevailing LCG Quote for each Transaction at the time of settlement or at the first such time that such a settlement may be practicably made. The settlement amount in respect of each open Transaction will be calculated by us as the difference between the opening value of each Transaction and its value on the settlement price.

20. FEES AND PAYMENTS

20.1 When you enter into a Transaction with us you will be charged a mark-up or mark-down (the difference between the price at which we take

a principal position and the Transaction execution price with you). We may agree a fixed mark-up or mark-down (commission). The mark-up/mark-down or commission that will be charged depends on the circumstances of each Transaction. You can request details of the relevant mark-up/mark-down or commissions by contacting us.

20.2 Your account will be debited with such sums of money as may from time to time be due as a result of a Transaction (including but not limited to any charges and/or commissions detailed from time to time in the Market Information, all applicable Value Added Tax (VAT) and other taxes and all other account fees (such as inactivity fees, as described in clause 23) as detailed on the Website from time to time.

20.3 Any changes to tax laws which result in future imposition of stamp duty, capital gains tax or other tax, which may from time to time be levied on Transactions will be debited to your account.

20.4 You may be liable for other charges and taxes that are not imposed by us. You are solely responsible for the timely payment of such charges and taxes. You should seek independent advice if you are in any doubt as to what further charges or taxes may apply to you as a result of you entering into the Agreement.

20.5 Any type of charges, expenses, costs and fees, payable in regard to your payment transactions for the purpose of this Agreement, including but not limited to credit and debit cards processing, bank transfers, payment service providers and any other relevant payment methods, may be debited from your account.

20.6 You agree that we may share commission and charges with our Associated Companies, Trading Partners or other third parties, and receive or pay remuneration from or to the same in respect of Transactions entered into by you with us. Such commissions and charges will only be paid where we are satisfied that such payments do not impair our requirement to act in your best interests.

20.7 If you were introduced to us by a Trading Partner or other third party, a portion of the revenues generated by your Transactions or of the charges paid by you to us may be given to such Trading Partner or third party and this may increase the overall cost of services to you.

- 20.8 We may at any time deduct, without notice or recourse to you, any monies deposited in or credited to your account in error by us or on our behalf.
- 20.9 You may not assign any part of your profits or losses to a third party. Subject to clause 25, a third party may not place any funds in your account or withdraw funds from your account. All withdrawals from your account must be payable directly to you (by means of BACS or similar electronic payment).
- 20.10 As a fraud prevention measure and in accordance with money laundering regulations, we will only refund monies back to the source from which they originated. Where monies have been deposited by card the funds will be returned to that card where possible, and where not possible we may require sight of an original bank statement before refunding to that bank account.
- 20.11 Where monies have been deposited by bank transfer we may require sight of the original bank statement showing the transfer before any refund is made to that bank account.
- 20.12 Where bank accounts have been closed we may require a letter from the originating bank stating that the account has been closed and there are no funds owing to the bank. Before we will refund to a new bank account we may require sight of the original deposit transfer statement from the closed account and sight of an original new bank account statement.
- 20.13 If our records show a discrepancy between card details and our account details as supplied by you, we may require sight of original bank statements, or any other relevant evidence, to confirm your status before processing a refund.
- 21. PLATFORMS AND SYSTEMS**
- 21.1 Although we give no undertaking, representation or warranty that the Platforms will be available or accessible, we will use commercially reasonable efforts to ensure that the Platforms can be accessed by you for use in accordance with the Agreement.

- 36.1 Unless otherwise agreed in writing, we will hold your money (including cash deposited, realised profit and unrealised profit) as trustee in a segregated account at a bank or other financial institution chosen by us in accordance with the Applicable Laws and subject to and in accordance with the Agreement. This means that clients funds will be segregated from the Company's own money and cannot be used in the course of its business.

 - (ii) As a result, you will cease to have a proprietary claim over any funds which you have paid into your account and we will be permitted by the Client Money Rules to hold and deal with those funds in such manner as we may determine at our discretion. You may ask us to return to you all or any part of the credit balance of your account from time to time but we will only be required to do so to the extent that such amounts are not securing or otherwise covering current open Transactions.
